

The Athenian Leadership Society

A Program For Leadership Development

WHAT IS THE ATHENIAN LEADERSHIP SOCIETY AND HOW DO I BENEFIT FROM A DIALOGUE?

The Athenian Leadership Society is an advanced IIMC Leadership Development Program. A Dialogue focuses on helping Municipal Clerks develop critical thinking skills and increasing their leadership ability. Leadership Dialogues provide valuable knowledge, vision and understanding to build increased leadership capacity and add value to the contribution of Municipal Clerks in improving local government.

WHAT IS AN ATHENIAN AND HOW DOES IT RELATE TO A MUNICIPAL CLERK?

The Athenians were leaders who invented the idea of political democracy, philosophy, logic and rhetoric. The choice of Athenian in the title of the Leadership Society signals the values of this culture from 2,500 years ago. To be an Athenian is to hold knowledge and the quest for knowledge in high esteem. They left the world enriched with their ideas. Municipal Clerks at their best exemplify Athenian values.

WHAT IS INVOLVED IN A LEADERSHIP DIALOGUE?

Leadership Dialogues are conversations that exceed the usual knowledge recall and application process. They explore leadership principles and practices, drawing on the insights contained in a book that all participants have read. Dialogues are a channel of communication in which Municipal Clerks share their experience and understanding as they relate to the author's ideas and the relevance of those ideas to their public leadership role. A scholar intuitively familiar with the book's subject and purpose leads each Leadership Dialogue. The interest and involvement of the participants, and the author's specific focus and emphasis, require that the facilitator move purposefully using the language of feeling, meaning,

and power. Participants devote a full day to a Dialogue and come away intellectually enriched by this communication experience.
