Situational Leadership® II (SLII®) is the world's most taught leadership model—because it works! The foundation of SLII lies in teaching leaders to diagnose the needs of an individual or a team and then use the appropriate leadership style to respond to the needs of the person, team, and the situation.

SLII Concepts introduces you to the theory of SLII in an engaging and informative way. The new training design is fast-paced, content rich, and provides a meaningful overview of SLII concepts for general awareness or as an introduction to SLII ahead of a more extensive learning experience.
