DIALOGUE

Wednesday, April 1st  
8:30 a.m. to 3:30 p.m.

Matthew McConaughey's unconventional memoir, blending his life story with a philosophy for living authentically, centered on "catching greenlights"—moments of affirmation and flow—by navigating life's yellows (caution) and reds (stop) as opportunities for growth, drawing from his journals, adventures, and reflections on family, career, and self-discovery. It's a collection of his personal stories, poems, photos, and hard-earned wisdom on finding purpose and embracing challenges to live a more fulfilled, courageous life.
